👤 PROFILE

My name is Infant Joswa, and I am currently pursuing a Bachelor of Technology (B.Tech) in Information Technology at St. Joseph's Institute of Technology. I am passionate about technology, problem-solving, and continuous learning, with a growing interest in software development, data structures, and emerging technologies. I enjoy working on projects that challenge my creativity and technical skills, and I am eager to apply my knowledge to real-world problems. My goal is to build innovative solutions and grow as a professional in the IT industry
